

LEATHER LASER CUTTING AND ENGRAVING

Posted on 2023-05-09 by redsail

Category: [APPLICATIONS](#)

Redsail laser engraving machine adopts the latest laser engraving technology, which is intelligent, convenient and easy to operate.

Redsail laser engraving machine adopts the latest laser engraving technology, which is intelligent, convenient and easy to operate. It can make permanent marks on the surface of leather materials with laser beam, expose deep materials through the evaporation of surface materials, and carve exquisite patterns, trademarks and words, so as to produce leather products with non fading image patterns, gradual flower shapes, holes and hollows.

Recommended model for leather products – [Redsail CM1390E](#)
